Neoprene vulcanizates.... 185
Neoprene-GN vulcanizates.... 173
Network of long-chain molecules, elasticity of.. 296
New extrusion plastometer.... 745
Nitric oxide, action on rubber, polyisoprenes and allied compounds of.... 772
Nitrosobenzene, reactions of polyisobutylenes and Butyl rubber with.... 679

Observations on the x-ray structure of rubber and the size and shape of rubber crystallites 640
Olefins, chemical linking of rubber and of other sulfur-, reactions.... 788
Organic liquids, resistance of Buna ebonites to. 724
Oxidation of rubber in the presence of acetic acid or acetic anhydride.... 267
Ozone, reactions of polyisobutylenes and butyl rubber with.... 679

Particles of natural and synthetic rubber, stresses in and about the.... 865

Page

Pendulum test for resilience of rubber, errors arising in....1002
Petroleum products, effect of, on Neoprene vulcanizates.... 185
solvents, effect of, on cold resistance of synthetic vulcanization.... 116
Phenol-formaldehyde resins.... 277
Physical chemistry of rubber solutions.... 653
methods of analysis of synthetic and natural rubber....253, 757
testing of synthetic-rubber products.... 974
Plastic, elastic-, properties of high polymers... 882
-elastic scale, position of rubberlike state on. 366
pseudo-, phenomena with vulcanized rubber. 854
Plasticity and recovery of GR-S.... 875
Plastometer, du Pont, modified Williams.... 994
new extrusion.... 745
Polyacrylonitrile.... 356
Polyisobutylene.... 331
and Butyl rubber.... 679
Polyisoprene and allied compounds, Rubber IV....1, V....277, VI....759, VII.... 772
autoöxidation reactions in.... 267
Polymerization of acrylonitrile.... 356
Position of the rubberlike state on the plastic-elastic scale.... 366
Processes of reclaiming rubber and their relative merits.... 544
Processing behavior of high polymers. Correlation with elastic-plastic properties.... 882
characteristics of synthetic rubbers and their use in the manufacture of extruded products.... 932
Properties of hard rubber. XI. Experiments on aging.... 913
XIII. Experiments on thermal effects during vulcanization.... 923
Pseudo-plastic phenomena with vulcanized rubber.... 854

Reclaiming rubber, processes of.... 544
Recovery of GR-S, factors influencing.... 875
Reënforcement, filler, in natural and synthetic rubber.... 865
Relaxation of rubber.... 576
stress, of natural and synthetic rubber stocks 551
Report of the Crude Rubber Committee, Presented to the Division of Rubber Chemistry, April 26, 1944....529, 757
Resilience of rubber....1002
Resilient energy.... 435
Resins, rubber.... 731
Retraction of stretched rubber.... 617
Rheological properties of natural and synthetic rubbers.... 621
Rubber, polyisoprene and allied compounds. IV. Relative tendencies toward substitutive and additive reaction during chlorination. 1
V. The chemical linking of rubber and of other olefins with phenolformaldehyde resins.... 277
VI. The mechanism of halogen-substitution reactions and the additive halogenation of rubber and dihydromyrcene.... 759
VII. Action of nitric oxide.... 772
Rubber resins.... 731

Scorchability test of compounded rubbers.... 213
Setting-up or scorchability test of compounded rubbers.... 213
Shatter points of rubberlike materials.... 100
Shear-stresses, dynamic.... 597
Shore durometer for measuring hardness of synthetic and natural rubbers.... 512
Simple vulcanizates of Buna-S and sulfur. Physical and chemical properties.... 124
Softness of rubber, effects of milling on.... 436
Solubility and diffusion of sulfur in synthetic elastomers.... 693
Solutions, rubber, physical chemistry of.... 653
transparency of rubber and its.... 51
Solvents, petroleum, effect on cold resistance of synthetic vulcanizates.... 116
Spectroscopy, ultraviolet, applied to study of transformation of tetramethylthiuram disulfide.... 941

Page

Stability of butadiene.... 475
Statistical length of rubber molecules.... 779
thermodynamics of rubber. III.... 392
Stiffness, low temperature, in elastomers.... 107
Strains in an inflated rubber sheet, and the mechanism of bursting.... 957
Stress relaxation of natural and synthetic rubber stocks.... 551
-strain data for vulcanized rubber under various types of deformation.... 813
relation of natural and synthetic rubbers.. 826
Stresses in and about the particles of natural and synthetic rubber.... 865
Stretched rubber, retraction of.... 617
Structure of copolymers of isobutylene and isoprene.... 346
x-ray, of rubber.... 640
Studies in compounding guayule rubber. I, II, III. Deresinification of crude guayule rubber....131, 142
Sulfur compounds, reaction of methyl iodide with.... 303
vulcanization of Buna-S (GR-S).... 896
diffusion in synthetic elastomers.... 693
linkage in vulcanized rubbers. 1. Reaction of methyl iodide with sulfur compounds.. 303
olefin reactions, chemistry of.... 788
total, determination in rubber.... 227

Temperature coefficient of vulcanization of Buna-S.... 412
Testing of rubber in compression....1000
Tetramethylthiuram disulfide as a direct vulcanizing agent.... 941
Theory of filler reënforcement in natural and synthetic rubber. Stresses in and about the particles.... 865
Thermal effects during vulcanization.... 923
expansion and second-order transition effects in high polymers. I. Experimental results.... 802
Thermodynamics of rubber, statistical.... 392
Thick articles, cure of GR-S in.... 984
Thiocyanogen, reactions of polyisobutylenes and Butyl rubber with.... 679
Total and combined sulfur in Butyl rubber.... 738
sulfur in rubber, determination of.... 227
Transformation of tetramethylthiuram disulfide, application of ultraviolet spectroscopy to.... 941
Transition effects in high polymers.... 802
Transparency of rubber and its solutions.... 51
Tread cracking of natural and synthetic rubber stocks.... 441

Ultraviolet spectroscopy, application of, to a study of transformation of tetramethylthiuram disulfide.... 941
Unsaturation of butadiene and related polymers as determined by iodine chloride addition. 61
of polyisobutylenes and Butyl rubber. Reactions with nitrosobenzene, thiocyanogen, iodine monochloride and ozone.... 679
Use of the Shore durometer for measuring the hardness of synthetic and natural rubbers. 512

Vulcanization of Buna ebonites, degree of.... 724
Buna-S (GR-S) with organic sulfur compounds.... 896
or other heat treatment by electrical conduction.... 188
process, mechanism of action of mercaptobenzothiazole in.... 56
thermal effects during.... 923
Vulcanizing of ebonite. Controlled curing of natural and synthetic rubber ebonites of large cross-section.... 192

Water, resistance of, Buna ebonites to.... 724
Wild rubber of tropical Africa.... 240

x-Ray structure of rubber.... 640

Young's modulus of elastomers.... 421
